第6巻をお届けします。

ようやく“Z”のにおいを少しずつ感じていただけるようになってきたのではないでしょうか。お話のほうはそれぞれのキャラを描き込み、エピソードごとのまとまりも良く、メカシーンも格好良く…とみんなで頑張っております。おじさん、おばさんばかりではありますが、親しみを持っていただけるとなお一層今後を楽しんでいただけるかと。今後のグイグイとくる展開に備え身をかがめ力を溜めてという感じです。

かがんだまま寝てしまわないよう（笑）、応援いただければ幸いです。怒濤の第3

Chapter 06 [KEEP OUT]

École du Ciel is closed for three weeks while the live fire incident is investigated. Forbidden from leaving, the students stage a volleyball competition. Asuna and Shinn team up, but lose badly to Kerry's team.

Chapter 07 [TURNING POINT]

Bothered by her apparent failure, Erisia challenges Asuna to a simulation battle late at night. Afterwards, the two have a heartfelt discussion. Breakends, and the students head for space.

Chapter 08 [LEAVING FOR SPACE]

The students board a shuttle bound for an Anteiam-class training ship "Ericsson," which hovers on the dark side of the moon. Council point-man Instructor Forma extols his belief that live combat stress will awaken Newtype abilities among the students.

Chapter 09 [SPACE MANEUVERS]

After a month in space, training with the space-use GM begins. During a simulation run, Asuna temporarily beats Erisia, but sudden sensations send her into a tailspin. The Council's Colonel Hank boards the Ericsson to observe.

Chapter 10 [REUNION]

The Ericsson docks at Side 3. Asuna meets her mother, Haruka. They argue about Asuna's father, Professor Elmarit, a fugitive war criminal. Angered, Asuna runs out of the house. The Titans monitor the entire mother-daughter reunion.

SPECIAL CHAPTER [ASUNA ENTERS THE ACADEMY]

Zeon-born Asuna, enrolling into École du Ciel a week late, gets a stiff welcome. Emilu challenges Asuna to a simulation battle to drive her out of school.

▲ Asuna and Shinn bond during the volleyball competition. (Chapter 06)

▲ Asuna is reunited with her mother. Because Professor Elmarit is a war criminal, their entire conversation is monitored. (Chapter 10)

▲▶ Emilu, who lost both parents in the One Year War, gets hostile towards Zeon-born Asuna. (Special Chapter)

I REALLY DON'T THINK YOU HAVE ANY IDEA WHAT YOU'RE DOING
WHAT DO YOU THINK?
I... I JUST CAN'T GET INTO IT
AFTER ALL, I'M RUNNING FOR LOGISTICAL SUPPORT
ASUNA ELMARIT, NO BREAKS AND 10 HOURS OF ADDITIONAL SIMULATOR TRAINING!
MS MASTERY IS MANDATORY! REMEMBER THAT!
YOU MORON!

▲ After defeating Asuna in the simulator, Erisia takes a special interest in her. (Chapter 01)

▲ Asuna's Zaku destroys Shinn's RGM-79C with a judo flip. (Chapter 03)

PART I STORY GUIDE

Chapter 01 [ECOLE DU CIEL]

U.C.0085. Asuna Elmarit, born on Side 3, enrolls in the Federation's Mobile Suit Training School "Ecole du Ciel." With little confidence, she looses to Erisia, top of the class, in 2 minutes 12 seconds on the simulator.

Chapter 02 [ASUNA ELMARIT]

Asuna is banned from simulators by Instructor Yahagi. However, with help from her friends Shinn and Emilu, Asuna masters the basics and gets back on track.

Chapter 03 [SIMULATION]

Asuna is asked to demonstrate her improvement in a simulation against Shinn. Because this means packing up for home, Asuna chooses to spar with the "familiar" MS-06J Zaku. She wins in close-range combat with a decisive judo flip.

Chapter 04 [POINT OF IMPACT]

Training in real mobile suits begins. During a simulation, live rounds are fired instead of paintballs. It is called an accident, but is really the work of an administrative council trying to draw out Newtypes at École.

Chapter 05 [THE RIGHT STUFF]

Yahagi orders training halted, but the automated Guntank continues. Erisia's judgment fails her and she is struck down. Yahagi takes control of Asuna's unit and fights masterfully to stop the Guntank. Rumors fly that he was a Newtype in the One Year War.

Chapter 17 [SYNCHRO]

When Asuna hesitates in battle against the pirates, Yahagi takes over Asuna's unit through Synchro Mode, pulling her out of range. Shinn is hospitalized. Asuna is jailed for her unauthorized sortie.

Chapter 18 [BURIAL IN SPACE]

Instructor Linny is buried while his students watch. It's Asuna's first personal brush with death. A Salamis fleet arrives to provide escort. Training resumes in space. A suspicious shuttle approaches, exploding before Yahagi's eyes.

Chapter 19 [RAID]

The explosion floods the area with Minovsky particles as the pirates launch a surprise Mobile Suit attack. Erisia fights well, but Asuna is overwhelmed by the "voices" of the dying and crumbles.

Chapter 20 [2 VS. 1]

Yahagi and Erisia use remote control to employ training units against the overwhelming power of Akira's Kampfer. One Salamis falls after another. Shinn ignores his wounds and sorties in a trainer.

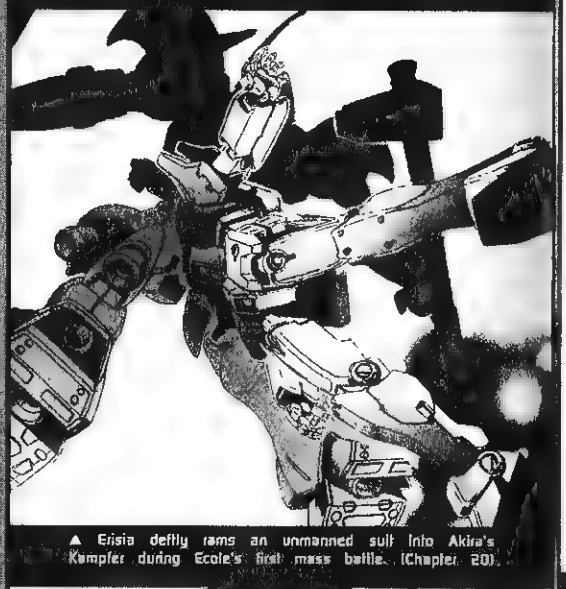
Chapter 21 [AWAKENING]

The wounded Shinn opposes Akira. Asuna hears Shinn's voice and awakens, destroying four Zakus almost instantly. A total of five fall as Asuna heads towards Akira's battle with Yahagi, Erisia and Shinn.

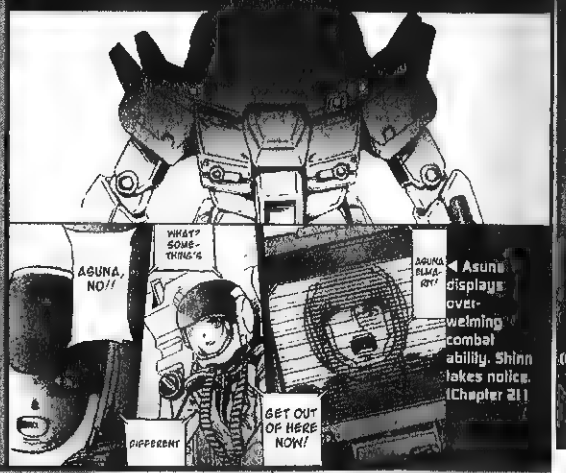
Chapter 22 [TRUTH]

To protect Asuna, Shinn charges Akira despite his suit's right arm and left leg being blown off. He is killed. The shattered Asuna discovers upon her return that this battle was set up by the Council to spur Newtype awakening. Asuna flees École du Ciel and goes missing.

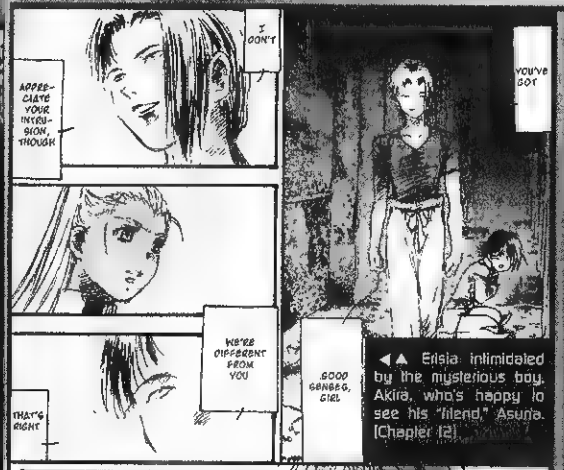
▲ A shuttle is destroyed as a decoy. Minovsky particles are scattered. Salamis 2 is attacked and destroyed. (Chapter 19)



▲ Erisia deftly rams an unmanned suit into Akira's Kampfer during Ecole's first mass battle. (Chapter 20)



◀ Asuna displays overwhelming combat ability. Shinn takes notice. (Chapter 21)



◀▲ Erisia intimidated by the mysterious boy, Akira, who's happy to see his "friend," Asuna. (Chapter 12)

I COULDN'T ALLOW MYSELF TO BECOME PART OF AN EXPERIMENT
I'M SORRY MOM! I DIDN'T WANT TO LEAVE WITHOUT MAKING UP
YAHAGI...
I WAS ALREADY PREGNANT WITH ASUNA

▲ Asuna is happy her mother is seeing her off. If only that were so; it is Yahagi who Haruka yearns to be with. She was prevented by Colonel Hank from revealing the secret of Asuna's birth to Yahagi. (Chapter 15)

Instructor Linny falls to Akira's Kampfer. (Chapter 16)

Chapter 11 [HARUKA ELMARIT]

A pirate mobile suit under Major Alburn X's command approaches Side 3 and engages Republic of Zeon forces. Instructor Yahagi reminisces with Haruka Elmarit. While touring the Zeon National Defense Academy with their friends, Asuna hears a voice from inside her...

Chapter 12 [SIGNS]

The one calling to Asuna is Akira, a former companion of Asuna's from a Zeon Newtype training program long ago. Akira's presence overwhelms Erisia, and he proceeds to brag that because of breeding experiments and special training, he and Asuna are unique.

Chapter 13 [NEWTYPE]

Yahagi and Asuna's mother, Haruka, were lovers back in school. Although Haruka married the professor, she eventually found herself at odds with his experiments. Erisia and Asuna's encounter with Akira leaves both despairing, but for different reasons.

Chapter 14 [INCOMING]

Asuna, sketching inside the ship, and Shinn, checking up on students, are jailed for violating curfew. Colonel Hank interrogates Yahagi's guest, Haruka, but the scheming Forma lets her go free.

Chapter 15 [ENCOUNTER]

The training ship launches from Side 3. Asuna is happy her mother's seeing her off, but it's Yahagi that's on Haruka's mind. Shinn and Instructor Linny launch to recover a life pod from a mobile suit destroyed by pirates.

Chapter 16 [WRITHE]

Shinn and Linny stumble across a disguised shuttle sent to pick up Akira from Side 3. Akira's Kampfer cuts Linny down and heavily damages Shinn's suit. Asuna sorties without authorization to save him.

(Events To Date) A girl born in the Republic of Zeon, Asuna Elmarit, enters the Federation MS training school École. There, her hidden power blooms. However, discovering that the Gaiomic attack incident was a plot by project to identify, develop, and monopolize both civilian and military Newtypes, Asuna flees École and becomes part of Marie Alberdia's pirates. Marie's pirate ship docks for repairs. With a fake passport, Asuna enters Side 6 to go shopping but uses a credit card with her real ID, leading to her capture by Titans intelligence agents.

COLONY BATTLE

A Titans MS (Hizack) platoon deploys to capture Asuna. Though Asuna's outnumbered three to one, the mission is to capture, not to kill. Asuna flies up to the gravity-less colony center and makes a dead stop, using the low gravity for tactical advantage.

Titans pilots weren't skilled in space. This one let his guard down.

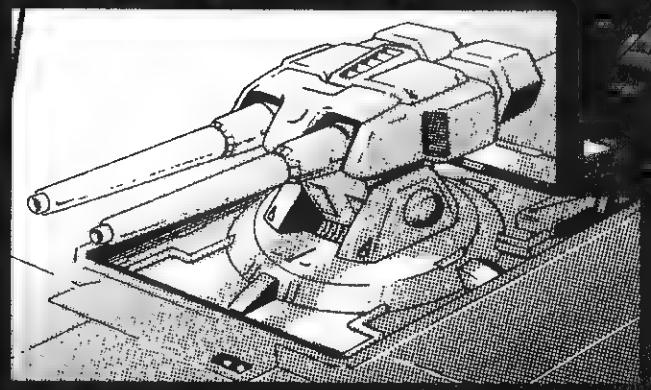
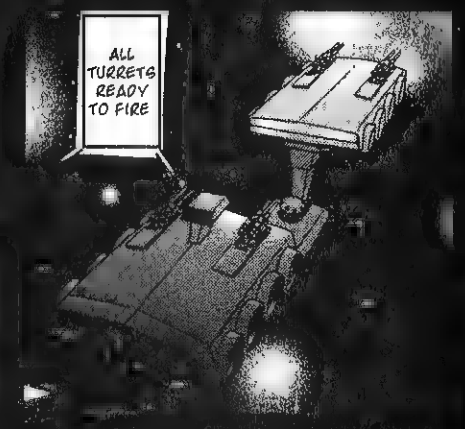
PIRATES FILE:3

Papua-class transports don't have guns, but Marie's pirate ship is equipped with concealed mega particle cannons. Its nine confirmed double-barreled turrets, for a total of 18 mega particle cannons, is enough to destroy an enemy cruiser in one volley.





▲ Papua-class transports were originally heavily armored missile ships. Marie's ship seems to have had mega particle cannons added for artillery combat.

COOKING TIME

Asuna's Apron

Maybe Asuna got her "odd taste in delicacies" from Erisia during her time as an MS pilot trainee at "École"?! Asuna finally discovers the truth that her taste in food is... somewhat lacking.

Asuna's "Space-Style O-Den Seafood"

Prepared with potato (red sprouts, but few bolt), green peppers, Space Salamander (colony-bred salamanders. Known as "Venus Dragons." Might be a bit hard to get, cost, and Mars Crab legs (like "Venus Dragons," a type of crab raised on colonies with a particularly hard shell, said to be unsuited for cooking).

Once proper quantities have been prepared, slowly simmer, then serve with a portable burner (careful, use of these strictly prohibited outside gravity section). Men have fun with this tasty, exotic delicacy!!

The "Titans" were created by elitist anti-Spacenoids within the Earth Federation military.
Opposition assembled under the banner of the Anti Earth United Group, "A.E.U.G."
In U.C. 0087, A.E.U.G.'s hijacking of a Gundam Mk-II from Side 7 sparked armed conflict between them.

PIRATES FILE: 4

Ladies at Work

Numerous women work for the "Pirates" under ex-Zeon Marie Alberdia's command. How they came to be pirates is unknown, but for some reason, they all have nice figures (Asuna & Juna excepted).

Queen of the Kitchen

Would she wear those tights on the job if there was gravity? And what's her thing with Akira? He's younger!

Com/ Radar Ladies

Maybe Marie's fashion sense is rubbing off. Looking pretty good!!

Lady at the Helm

Wears an old Zeonic Normal Suit at the helm. Pretty hair. Is she blonde?

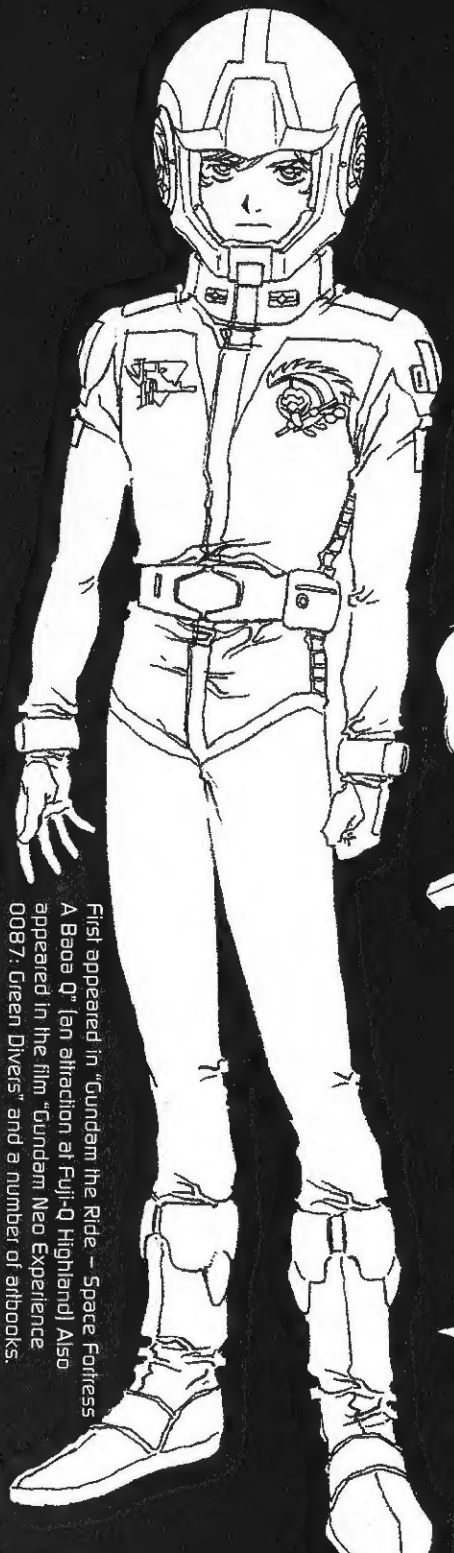
CHARACTER FILE: 16

Jack Baird

Unlike Kamille Bidan, who entered A.E.U.G. as a civilian, Jack entered A.E.U.G. as a professional Federation MS pilot. Sent to the lunar city Anman to test the capabilities of a captured Titans Gundam Mk-II. Holds contempt for, and clashes with, Marie's "Pirates," who are also involved in the Gundam testing.

During the One Year War, he was known as "Jack the Halloween" while commanding an MS platoon aboard a Waj class Federation transport. Hired by Anaheim Electronics as a test pilot after the war.



First appeared in "Gundam the Ride – Space Fortress A Baoa Q" Ian attraction at Fuji-Q Highland! Also appeared in the film "Gundam Neo Experience 0087: Green Divers" and a number of artbooks.

▲ Plays major roles in many Gundam video games.
